If Christmas is indeed the season of magic and wishes coming true, here's my wish for Washington Street.

Wishing that the unit number for any development is set at 11 or 12, maximum. Insert a little breathing space for the new residents with at least a nod to the original number, 9.

Neighbors know what the site will best support and listening to that would also benefit anyone's quality of life when buying into the new property.

Wishing the Board a productive and healthy Christmas
