Subject: Waldingfield / ORA project

Hello:). As a neighbor of Waldingfield and avid dog walker and road biker, I can attest that the traffic down Waldingfield Rd - which can handle one way traffic but barely has room for two cars to pass - will be completely untenable should ORA purchase the property and proceed as planned with Phases 1, 2 and 3. Waldingfield Rd. is multi-use, full of blind turns and super narrow. Moving forward with this project on this road I fear is a recipe for tragedy.

Should this project happen (and I sincerely hope it doesn't as it would eliminate any prospect of safety for people riding, biking or walking) please look into options that would result in all ORA parking being off site with shuttle busses for executives, visitors and employees.

Thanks so much.
