Dear Mr. Parsons,

Could you please make sure both Boards see our following letter. Thank you.

Dear Design Review Board and Planning Board,

Please vote in favor of the project in front of you for 5-11 Washington St. When 16 units were being asked for we liked the project. It being at 13 units now and one still being affordable, we would hope the Boards would definitely vote yes. This project would provide more needed housing in Ipswich and at the same time beautify that section of town. The applicant has certainly made incredible amounts of adjustments over the last 6 months listening to both Boards. It is time for both boards to stamp this project yes and let the applicant spend money on the project instead of the approval process. Thank you for your time.

Sincerely,

Dominick and Janice Migliaccio  
423 Linebrook Rd, Ipswich
