Ms. Carolyn Britt
Chair – Ipswich Planning Board
Ipswich, MA

RE: 5-11 Washington Street, Ipswich, MA

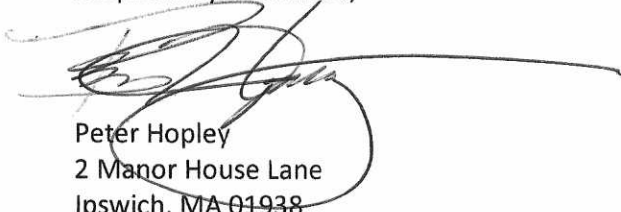

Dear Ms. Britt,

I am writing as a resident of Ipswich to express my support of this project, again.

Providing density that conforms to zoning, providing a quality living environment, on a site that is downtown within walking distance of the train, and businesses that rely on the support of the residents are a benefit to this town. This is a quality project for Ipswich!!! There is a need for this type of quality development that conforms to the intent of the Town's Growth Initiative. It's way past time to further discuss global site issues and personal preferences and get to the engineering detail and approve this project.

Thank you for your service to the Town.

Respectfully submitted,

Peter Hopley
