Subject: NEB HazMat App

Ethan,

The Fire Department has reviewed the Special Permit Application for Use and Activities submitted by New England Biolabs on January 20, 2022. Based on this application, our review of Zoning Bylaw IX.N, and discussions with the applicant regarding is facilities and procedures, the Department supports approval of this application for the storage, use and disposal of hazardous materials.

Let me know if this is sufficient, or if you require any elaboration.

Best,

Lt. Kendall Buhl
Fire Prevention Officer
Ipswich Fire Department
