Planning Board
Town of Ipswich
25 Green Street
Ipswich, MA 01938

RE: 55 Waldingfield Road

Dear Chair Moored and Members of the Planning Board,

I have been "commuting" from our house on Argilla Road to Pingree School , via Waldingfield Road, this past week, and for the last time today, with my three grandchildren in my car. It has been a harrowing experience to say the least. On Friday, an elderly woman (not me) veered off the road heading toward 1A and crashed into a stone wall. Today, I was nearly run off the road twice---once by a car traveling way too fast, and a second time by a UPS truck.

I cannot imagine what Waldingfield Road will be like with snow banks on both sides. Additional traffic brought on by Ora's proposed plan will turn an already dangerous road into one with the likelihood of a disastrous accident. I sincerely hope it will not take a fatality for those turning a blind eye to the traffic issue to see the folly of their ways.

I shall now travel the longer route through town this week or via Cutler Road so as not to endanger my cherished passengers.

I respectfully ask the Planning Board to give serious thought to this issue, and I commend all of you for your time and effort in reviewing all matters related to Ora's proposal.

With kind regards,

Polly V. Fawcett
